MEMORANDUM FOR GENERAL CABELL, CIA

Subject: JRCOI 3000.3; Subject: Handling of  
Special Operational Information

1. Enclosed is the final version of the Joint Reconnaissance Center Operating Instruction concerning handling of operational information received from CIA. This operating instruction is understood to be mutually agreeable to your operational people and JRC.

2. The Joint Reconnaissance Center and those individuals receiving the information required by this operating instruction are acutely aware of the sensitiveness of the information and the need for close control of dissemination. Every effort has and will continue to be taken to insure that improper dissemination does not occur.

3. Difficulties have arisen concerning the passing of information in a timely fashion, between your operating agencies and JRC. Efforts are currently underway investigating the feasibility of a secure telephone capability which will provide direct contact between CIA and the JRC. The present teletype link would still be required.

4. The cooperation and assistance provided by CIA personnel to the JRC project officer has been commendable and there are no areas of conflict or disagreement.

FRED M. DEAN  
Major General, USAF  
Director for Operations
